

## TABLE OF CONTENTS

Chapter 1	GENERAL REQUIREMENTS AND ADMINISTRATIVE PROVISION
	1.01 Purpose
	1.02 Applicability
	1.03 Definitions
	1.04 Prohibited Activities
	1.05 Enforcement
	1.06 Alternate Methods
	1.07 Provisions Within Cities Operating the Local Program
	1.08 Other Provisions
Chapter 2	ADMINISTRATIVE PROCEDURES
	2.01 General
	2.02 Pre-Development Site Certification and Assessment
	2.03 Construction Permits
	2.04 Requirements for Site Development Plan Approval
	2.05 Requirements for Plan Approval for Single Family Existing Lots of Record
	2.06 Easements
	2.07 Performance Assurances
	2.08 Agreements
	2.09 Project Construction Phase Completion and Acceptance
	2.10 As-Built Drawings
	2.11 Maintenance Assurance
	2.12 Maintenance Period Inspection and Completion
	2.13 General Administrative Rules
Chapter 3	SENSITIVE AREAS AND VEGETATED CORRIDORS
	3.01 General Provisions
	3.02 Service Provider Letter and Permits Required
	3.03 Vegetated Corridors
	3.04 Activities Allowed in a Sensitive Area
	3.05 Activities Allowed in a Vegetated Corridor
	3.06 General Requirements for Development Activities
	3.07 Encroachment Standards
	3.08 Replacement Mitigation Standards
	3.09 Land Division
	3.10 Redevelopment
	3.11 Wetland Fills
	3.12 Linear Development Projects
	3.13 Site Assessments
	3.14 Assessment Methodology

Chapter 4	<b>RUNOFF TREATMENT AND CONTROL</b>
	4.01 General Provisions
	4.02 Quantity Control Requirements for Conveyance Capacity
	4.03 Hydromodification Requirements
	4.04 Water Quality Treatment Requirements
	4.05 Low Impact Development Approach (LIDA) Requirements
	4.06 Summary of Stormwater Management Approaches
	4.07 Stormwater Management Approach Design Considerations
	4.08 Stormwater Management Approach Sizing
	4.09 Stormwater Management Approach Design Standards
Chapter 5	<b>CONVEYENCE SYSTEMS</b>
	5.01 General Provisions
	5.02 Extension of Public Conveyance Systems
	5.03 Conveyance Easements
	5.04 Flows
	5.05 Storm Conveyance Design Considerations
	5.06 Pipe Design
	5.07 Conveyance Structure Design
	5.08 Other Requirements for Public Conveyance Systems
	5.09 Laterals
	5.10 Flood Management Design Standards
Chapter 6	<b>EROSION PREVENTION AND SEDIMENT CONTROL</b>
	6.01 General Provisions
	6.02 Erosion Prevention and Sediment Control (EPSC) Standards
	6.03 Best Management Practices
	6.04 Inspection
Chapter 7	<b>GENERAL CONSTRUCTION SPECIFICATIONS FOR CONVEYANCE SYSTEMS</b>
	7.01 General Provisions
	7.02 Trench Excavation and Backfill
	7.03 Pavement Restoration
	7.04 Bores
Chapter 8	<b>TECHNICAL SPECIFICATIONS FOR CONVEYENCE SYSTEMS</b>
	8.01 General Provisions
	8.02 Manholes and Structures
	8.03 Catch Basins and Inlets (Storm only)
	8.04 Sewer Pipe and Fittings
	8.05 Testing and Acceptance
Chapter 9	<b>WASTEWATER PUMP STATIONS AND FORCE MAINS</b>
	9.01 General Provisions
	9.02 Design and Construction Requirements

9.03 Electrical and Instrumentation Control Requirements

Chapter 10 SEPTIC TANK EFFLUENT PUMP (STEP) SYSTEMS

- 10.01 General Provisions
- 10.02 Technical Specifications
- 10.03 Application
- 10.04 Inspection

Appendix A PLANTING REQUIREMENTS

Appendix B STANDARD DETAILS

- Manholes and Appurtenances
- Storm Structures
- Pipes
- Stormwater Management
- Erosion Control
  - Erosion Prevention
  - Runoff Control
  - Sediment Control
- Pump Stations
- Flow Monitoring
- Testing Forms
- Computational Aids
