

August 18, 2021

Dear Homeowner,

Clean Water Services (CWS) would like to provide you with an update on the NW Cornell Road at NW 107th Avenue Sanitary Reimbursement District (Cornell Sanitary RD) project.

Construction of Phase 1 is anticipated to start the **week of September 6 and continue through November 2021**. Phase 1 encompasses the “off-site” portion of the project to be constructed on private property (see attached diagram). CWS Field Operations staff will be constructing the Phase 1 improvements and communicating with those property owners directly impacted during construction.

Please be aware of changing traffic patterns throughout construction of the Phase 1 improvements, particularly at the temporary construction access locations noted in the attached diagram.

Phase 2 will be coordinated with Washington County’s road improvement project. Construction of the road improvements are currently anticipated to start winter/spring of 2022. For updates on Washington County’s project schedule, please continue to visit their website at [Cornell Road \(102nd to 113th\) \(washington.or.us\)](http://WashingtonCounty.org/CornellRoad).

Please continue to visit the project website cleanwaterservices.org/CornellSanitaryRD for regular updates throughout the project. If you have questions about the project, please contact our project team at CornellSanitaryRD@cleanwaterservices.org.

If you received this communication by US mail, please provide us with your email address by emailing the address above. If you do not have email, please call me directly at 503.681.3636.

Sincerely,

Tammie Wilson
Project Coordinator

Phase 1 Construction
